PREMIER REGULATORS, VALVES, & GAS DELIVERY SYSTEMS

LEADING EDGE DESIGNS WITH A PERSONAL TOUCH.

Premier Industries was established in 1995 as a designer and manufacturer of proprietary specialty gas and hydraulic regulators, valves, and systems, which now service a diverse market worldwide.

We offer a standard product line, alongside custom engineering to meet the demands of a diverse client base and are continually adding new technology and processes to meet the evolving needs of the market.

We manufacture and test all our equipment to meet rigid specifications while keeping in mind the distinctive needs and expectations of our customers. It is our goal to offer cutting-edge designs with a personal touch.

WE'RE EXPERIENCED AND RESPONSIVE.

Our customers know that if they have a question, they can pick up the phone and give us a call. No automated messaging systems here. We have a team of engineers with over 100 years of regulator design experience ready to assist you. We are always pushing for more sophisticated processes, working on leading-edge designs, while striving to remain personable and responsive.

CUSTOM ENGINEERING & TAILORED SOLUTIONS.

If you do not see a standard Premier model that suits your needs, please contact us; we would be happy to help you with a custom design or modification.

Our regulators are offered in a variety of materials (with varying weights, strengths, degrees of corrosion resistance, etc.), flow capacities, and inlet/outlet pressure ranges. With the flexibility of optional port alignments, port sizes/types, relief and shut off valves, etc. Premier regulators provide maximum versatility and compatibility for your application.

VERTICALLY INTEGRATED LOW-OVERHEAD MANUFACTURING.

From engineering, to programming and testing, We are proud to be a vertically integrated company that has the ability and means to produce high quality, American made products from concept to completion.

TABLE OF CONTENTS

High Pressure, Pressure Reducing Regulators.	8
High Flow, Pressure Reducing Regulators.	15
Cylinder & Line, Pressure Reducing Regulators.	18
Transportable, Pressure Reducing Regulators.	22
High Pressure, Back Pressure Regulators.	26
Misc., Back Pressure Regulators.	28
Specialty, Pressure Regulators.	30
Valves & Accessories.	31
Manifolds & Changeovers.	33
